Dear Mr. Mullard:

This letter is to inform you that we are still in the process of reviewing your Plan of Operations (Plan) that the Bureau of Land Management (BLM) Salt Lake Field Office received on December 13, 2004.

Currently we are working with the Utah Division of Oil, Gas and Mining (DOGM) to address deficiencies and matters of concern that DOGM's and the BLM's have with your plan. Because of this, we will need additional time to coordinate with DOGM and finalize the review of your plan.

Also, On December 15, 2004, the BLM sent Northern Stone Supply Inc. a letter acknowledging the receipt of your modification to your Plan of Operation (Plan) U-69380. After further review of this document and the Agreement that was signed on November 17, 2004, this office has determined that the document in question, "Northern Stone Supply, Inc. Turquoise Stone Quarry Plan of Operation and Reclamation Bond Update" will be considered a new Plan and not a modification.

Your new Plan will be serialized U-77816, please use this number in any future correspondence.

If you have any questions, or require additional information, please contact Larry Garahana of my staff at (801) 977-4371.

Sincerely,

David H. Murphy
